## COMPLETE FUEL SYSTEM TREATMENT

Rislone® Hy-per Fuel™ Complete Fuel System Treatment improves the quality of petrol by increasing its cleaning ability, adding lubrication, removing contaminants, reducing spark knock, and helping to prevent the fuel from going bad. This one dual cavity bottle contains the same amount of additives equal to a bottle of regular injector & complete fuel system cleaner, upper cylinder lubricant, fuel stabilizer & conditioner, petrol dryer, petrol treatment and octane booster. Simply put, it is the best all in one petrol fuel additive money can buy.

Works with ALL: Fuel Injected, Port Fuel Injection (PFI), Direct Injected (DI / DIG), Petrol / Gasoline Turbo Direct Injected (GTDI), Turbocharged, LPG and Carbureted Engines.

Use with ALL: Unleaded, Premium, and Ethanol (E10, E85) Flex Fuel Vehicles

- Cleans Injectors, Valves, Fuel Lines, Intake Manifold and the Combustion Chamber
- Boosts Octane, Power, Performance and Mileage (kilometers per litre)
- Stabilizes Gas, Lubricates and Protects
- Increases power, performance, mileage and saves fuel by cleaning & lubricating the complete fuel system. Engine dynamometer tests show improved fuel economy.
- Helps eliminate noisy injectors & fuel pumps, rough idle, hard starting and hesitation. Regular use provides reduced fuel system and emission control repairs.
- Will not void manufacture's new vehicle warranty and safe to use on vehicles which have oxygen sensors and catalytic converters. Exceeds EPA compliance performance criteria and is EPA registered.
- The 8,000 km Complete Fuel System Tune-Up

# PRODUCT DATA SHEET

## COMPLETE FUEL SYSTEM TREATMENT

### Technical:

- Upper Cylinder Lubricant (UCL) Top-Lube reduces friction and wear and improves fuel economy.
- Water Remover Petrol Dryer removes free water in petrol tank helping to prevent petrol line freeze-ups in the winter, and moisture related corrosion year round. This also works to reduce emissions and inhibits bacterial growth in petrol tanks.
- Fuel Stabilizer and Triple Corrosion Protection inhibits oxidation, gum, varnish and corrosion, helping petrol resist breakdown improving stability. Provides A-rating corrosion protection.
- Petrol Treatment Additives provide maximized power and acceleration, optimized fuel economy and excellent performance in petrol engines.
- Octane Booster raises the Octane number of petrol and Octane Requirement Increase (ORI) reduces spark knock, misfires and emissions.
- Premium P.E.A. Polyetheramine New Generation Detergent Patented Formula is a multifunctional additive improving the quality of petrol. Dual clean-up and keep-clean formula removes injector, combustion chamber and intake valve deposit which restores lost power and improves fuel economy.

### Note:

This product includes a specially designed spout which allows it to be poured into all petrol tanks, include those that use a capless (no fuel cap) system.. Use anytime in a nearly full tank, or add to tank and then fill with up to 70 litres of petrol. For smaller tanks from 20 to 40 litres, use 1/2 bottle pouring equal amounts from each side. Larger tanks use one bottle for every 60 litres of petrol.

### Directions:

Bend & twist spout and tear away on the perforated tab. Remove cap and foil seal. Tightly screw spout onto bottle. (Pictured right) Gently tip bottle and complete insert spout into petrol tank opening, allow entire contents to empty into tank. For continued protection and cleaning, use one bottle every 8,000 km. Results will either be immediate, or noticeable within 150 km of driving.

To keep the system clean and lubricated in-between treatments, use Rislone Hy-per Fuel Injector Cleaner Upper Cylinder Lubricant part number 44701 (177 mL) or 44732 (950 mL).
