Rislone Radiator Stop Leak

Part #: 21192

RADIATOR STOP LEAK

Rislone Radiator Stop Leak is specially designed to stop minor cooling system leaks and drips caused by normal cooling system wear and age. Stop leak is compatible with both conventional green or blue (silicate-based) and extended life red/orange or yellow (OAT/HOAT) antifreeze. Works well in water alone, but it is also recommended if only running water in the cooling system, to use a good Water Pump Lube with Anti-Rust to prevent corrosion inside the system. For most vehicles, leaks stop in only a few minutes.

- Stops & Seals Coolant Leaks
- Seals Leaks in Radiators, Gaskets, Heater Cores & Freeze Plugs

INSTRUCTIONS:

Cooling systems that are dirty or partially clogged should be flushed before usage. Shake well and pour into radiator after engine cools. Fill radiator and overflow tank to proper level and reinstall cap. Drive or idle engine for 15 to 30 minutes. Leave Rislone Radiator Stop Leak in cooling system.

For preventative maintenance, use once a year to help guard against future leaks.

DOSAGE:

One bottle treats systems up to 11 liters.

Part Number: 21192
 UPC Item: 0 78615 21192 0
 UPC Case: 4 00 78615 21192 8
 Bottle Size: 325 ml
 Bottle Size (cm): 6.4 x 6.4 x 15.5
 Bottle Cube: 635
 Case Pack: 6 bottles per case
 Case Size (cm): 19.8 x 13.5 x 16.5
 Case Cube: 4410
 Case Weight (kg): 2.3
 Pallet: TI 44 HI 7 Total 308
 Pallet Height (cm): 130
