Rislone Cooling System Water Pump Lube with Anti-Rust

Part #: 21311

WATER PUMP LUBE WITH ANTI-RUST

Antifreeze alone is not enough to protect all of the metal, plastic and rubber parts of the cooling system. Rislone Cooling System Water Pump Lube with Anti-Rust protects aluminum, copper, iron and all other parts of the cooling system to help prevent the formation of rust and corrosion. The water soluble oil formula lubricates the thermostat and the water pump seal. Compatible with ALL brands of antifreeze including conventional green or blue (Silicate-based) and extended life red/orange or yellow (OAT/HOAT) coolant. A must use if running only water in the cooling system, especially racing applications.

- OEM quality meets leading car and truck manufacturer requirements.
- For best results install once every 24 000 kilometers.

DANGER: Opening cooling system while engine is hot or running may cause severe burns.

INSTRUCTIONS

Shake well and pour into cooling system after engine cools. Run engine to mix thoroughly.

DOSAGE

Passenger Car, and Light Trucks - Install one bottle for 4, 6 & 8 cylinders vehicles.

Over the Road and Heavy-Duty Equipment - Install one bottle for every 15 liters of coolant.

Part Number: 21311
 UPC Item: 0 78615 21311 5
 UPC Case: 4 00 78615 21311 3
 Bottle Size: 355 ml
 Bottle Size (cm): 6,4 x 6,4 x 15,5
 Bottle Cube: 635
 Case Pack: 6 bottles
 Case Size (cm): 19,8 x 13,4 x 16.5
 Case Cube: 4410
 Case Weight (kg): 2,5
 Pallet: TI 44 HI 7 Total 308
 Pallet Height (cm): 130
