4 First-aid Measures

Description of first aid measures		
General advice	IF exposed or concerned: Get medical advice/attention. Immediate medical attention is	
	required. Show this safety data sheet to the doctor in attendance.	
Inhalation	Aspiration into lungs can produce severe lung damage. If breathing has stopped, give	
	artificial respiration. Get medical attention immediately. Remove to fresh air. Avoid direct	
	contact with skin. Use barrier to give mouth-to-mouth resuscitation. If breathing is difficult,	
	(trained personnel should) give oxygen. Get immediate medical advice/attention. Delayed	
	pulmonary edema may occur.	
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.	
	Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if	
	present and easy to do. Continue rinsing.	
Skin contact	Wash off immediately with soap and plenty of water while removing all contaminated	
	clothes and shoes.	
Ingestion	ASPIRATION HAZARD IF SWALLOWED - CAN ENTER LUNGS AND CAUSE	
	DAMAGE. Do NOT induce vomiting. If vomiting occurs spontaneously, keep head below	
	hips to prevent aspiration. Clean mouth with water and drink afterwards plenty of water.	
	Never give anything by mouth to an unconscious person. Get immediate medical	
	advice/attention.	
Self-protection	Remove all sources of ignition. Ensure that medical personnel are aware of the	
of the first	material(s) involved, take precautions to protect themselves and prevent spread of	
aider	contamination. Avoid direct contact with skin. Use barrier to give mouth-to-mouth	
	resuscitation. Use personal protective equipment as required.	
NA (1 (we have and affects that he are to and delayed	
	ymptoms and effects, both acute and delayed	
Symptoms: Difficu	Ity in breathing. Coughing and/or wheezing. Dizziness.	
Indication of any immediate medical attention and special treatment needed		

Note to physicians: Because of the danger of aspiration, emesis or gastric lavage should not be employed unless the risk is justified by the presence of additional toxic substances.

5 Fire-fighting measures	
Suitable extinguishing media	Dry chemical. Carbon dioxide (CO2). Water spray. Alcohol resistant foam.
Unsuitable extinguishing media Specific hazards arising from the chemical	CAUTION: Use of water spray when fighting fire may be inefficient. Keep product and empty container away from heat and sources of ignition. In the event of fire, cool tanks with water spray.

Sensitivity to mechanical impact: None Sensitivity to static discharge: Yes

Special protective equipment for fire-fighters: Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

6 Accidental Release Measures

Personal precautions, pr	otective equipment and emergency procedures
Personal precautions	Evacuate personnel to safe areas. See section 8 for more information. Take precautionary measures against static discharges. Do not touch or walk through spilled material. Ensure adequate ventilation. Use personal protective equipment as required.
Other information	Refer to protective measures listed in Sections 7 and 8.
Methods and materials fe	or containment and cleaning up
Methods for containme	nt Stop leak if you can do it without risk. Do not touch or walk through spilled material. Dike far ahead of liquid spill for later disposal.

7 Handling and storage

Precautions for safe handli	ng
Advice on safe handling	Use personal protection equipment. Do not breathe vapor or mist. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharges. Use with local exhaust ventilation. Do not eat, drink or smoke when using this product. Remove contaminated clothing and shoes. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing.
Conditions for safe storage	, including any incompatibilities
Storage Conditions	Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Keep in properly labeled containers. Store in accordance with the particular national regulations. Store in accordance with local regulations. Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Keep out of the reach of children. Store away from other materials.

8 Exposure Controls/Personal Protection

Control parameters

Exposure Limits The following ingredients are the only ingredients of the product above the cut-off level (or level that contributes to the hazard classification of the mixture) which have an exposure limit applicable in the region for which this safety data sheet is intended or other recommended limit. At this time, the other relevant constituents have no known exposure limits from the sources listed here.

Appropriate engineering controls

Engineering controls	Showers
	Eyewash stations
	Ventilation systems

Individual protection measures, such as personal protective equipment

Eye/face protection Hand protection Skin and body protection	Tight sealing safety goggles Wear suitable gloves Wear suitable protective clothing
Respiratory protection	No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.
General hygiene considerations	Contaminated work clothing should not be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is recommended. Do not eat, drink or smoke when using this product. Wash hands before breaks and immediately after handling the product.

US Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

SARA 311/312 Hazard Categories

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications. Under the amended regulations at 40 CFR 370, EPCRA 311/312 Tier II reporting for the 2017 calendar year will need to be consistent with updated hazard classifications.

CWA (Clean Water Act)

This product contains the following substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).
