6 Accidental release measures · Personal precautions, protective equipment and emergency procedures Use respiratory protective device against the effects of fumes/dust/aerosol. Keep away from ignition sources. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions Do not allow to enter sewers/ surface or ground water. Prevent from spreading (e.g. by damming-in or oil barriers). Inform respective authorities in case of seepage into water course or sewage system. Methods and material for containment and cleaning up Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders). Remove from the water surface (e.g. skim or suck off). Send for recovery or disposal in suitable receptacles. · Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage · Handling:

- Precautions for safe handling Keep out of reach of children.
 Ensure good ventilation/exhaustion at the workplace.
 Open and handle receptacle with care.
 Avoid breathing mist/vapours/spray.
 Avoid contact with the eyes and skin.
 Information about fire - and explosion protection:
- Keep respiratory protective device available. Keep ignition sources away - Do not smoke.
- · Conditions for safe storage, including any incompatibilities
- Requirements to be met by storerooms and receptacles: Avoid storage near extreme heat, ignition sources or open flame. Store in cool, dry conditions in well sealed receptacles.
- **Information about storage in one common storage facility:** Store away from foodstuffs. Store away from oxidising agents.
- Specific end use(s) No further relevant information available.

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability
- Thermal decomposition / conditions to be avoided: Keep away from heat and direct sunlight. Avoid open flame, ignition sources, contact with incompatibile substances.
 Possibility of hazardous reactions Flammable liquid and vapour.

Used empty containers may contain product gases which form explosive mixtures with air. Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised. Reacts with oxidising agents.

- · Conditions to avoid Excessive heat.
- · Incompatible materials Oxidisers
- · Hazardous decomposition products Carbon monoxide and carbon dioxide
