

# Safety Data Sheet

Page 1 of 14

According to The Model Work Health and Safety Regulations, and the  
Globally Harmonized System of Classification and Labelling of  
Chemicals 7<sup>th</sup> Revised Edition

Printing Date: 29 August 2022

Revision: 05 October 2022

## 1. Identification

### Product identifier

**Trade name:** Rislone® Diesel Fuel System Treatment – Left Side  
**Product code:** 44740

### Recommended use and restriction on use

**Recommended use:** Treatment for diesel fuel

**Restrictions on use:** No further relevant information available.

### Details of the supplier of the Safety Data Sheet

#### Manufacturer/Supplier:

Rislone  
P.O. Box 187  
Holly, MI 48442 USA  
Phone: (810) 603-1321

#### Distributor:

Smits Group Pty Ltd.  
59 Greenmount Dr, East Tamaki, Auckland, New Zealand NZ  
Telephone: +09 274 6871 1  
AUS Telephone 1800 883 888

#### Emergency telephone number:

ChemTel Inc.  
(800) 255-3924 (North America)  
+1 (813) 248-0585 (International)

New Zealand 0800 764 766 (National Poison Control Centre)  
Australia 131126 (NSW Poison Control Centre)

## 2. Hazards identification

### GHS Classification

|                        |                      |
|------------------------|----------------------|
| Flammable liquids      | Category 4 – (H227)  |
| Aspiration hazard      | Category 1 – (H304)  |
| Germ cell mutagenicity | Category 1B – (H340) |
| Carcinogenicity        | Category 1B – (H350) |

### Label elements

Health hazard

# Safety Data Sheet

Page 2 of 14

According to The Model Work Health and Safety Regulations, and the  
Globally Harmonized System of Classification and Labelling of  
Chemicals 7<sup>th</sup> Revised Edition

Revision: 05 October 2022

**Trade Name: Rislone® Diesel Fuel System Treatment – Left Side**

**Signal word:** Danger

**Hazard Statements:**

H227 Combustible liquid.

H304 May be fatal if swallowed and enters airways.

H340 May cause genetic defects

H350 May cause cancer

**Precautionary Statements- Prevention**

Obtain special instructions before use

Do not handle until all safety precautions have been read and understood

Use personal protective equipment as required

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking

**Precautionary Statements- Response**

IF exposed or concerned: Get medical advice/attention

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician

Do NOT induce vomiting

In case of fire: Use CO<sub>2</sub>, dry chemical, or foam for extinction

**Precautionary Statements- Storage**

Store locked up

Store in a well-ventilated place. Keep cool

**Precautionary Statements- Disposal**

Dispose of contents/container to an approved waste disposal plant

**Other hazards which do not result in classification**

May be harmful if swallowed.

May be harmful in contact with skin.

Toxic to aquatic life with long lasting effects.

**General Hazards:** No information available.

## 3. Composition and information on ingredients

**Substance:** Not applicable.

**Chemical characterization: Mixtures**

| Chemical name                             | CAS No     | Weight-% |
|---|------------|----------|
| Petroleum distillates, hydrotreated light | 64742-47-8 | 80-100%  |

# Safety Data Sheet

## Note

### 4. First-aid measures

#### Description of first aid measures

##### General advice:

Show this safety data sheet to the doctor in attendance. IF exposed or concerned: Get medical advice/attention. Immediate medical attention is required.

##### Emergency telephone number

Poisons Information Center, Australia: 13 11 26

Poisons Information Center, New Zealand: 0800 764 766

##### After inhalation:

Aspiration into lungs can produce severe lung damage. If breathing has stopped, give artificial respiration. Get medical attention immediately. Remove to fresh air. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. If breathing is difficult, (trained personnel should) give oxygen. Get immediate medical advice/attention. Delayed pulmonary edema may occur.

##### After eye contact:

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing.

##### After skin contact:

Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes.

##### After ingestion:

Aspiration hazard if swallowed- can enter lungs and cause damage. Do NOT induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent aspiration. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Get immediate medical advice/attention.

##### Self-protection of the first aider:

Remove all sources of ignition. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Use personal protective equipment as required.

##### Most important symptoms and effects, both acute and delayed:

Difficulty in breathing.

Coughing and/or wheezing.

Dizziness.

##### Indication of any immediate medical attention and special treatment needed

##### Note to physicians:

Because of the danger of aspiration, emesis or gastric lavage should not be employed unless the risk is justified by the presence of additional toxic substances.

## 5. Fire-fighting measures

### Extinguishing media

#### Suitable extinguishing agents:

Dry chemical

Carbon dioxide (CO<sub>2</sub>)

Water spray

Alcohol resistant foam

**For safety reasons unsuitable extinguishing agents:** No information available.

#### Special hazards arising from the substance or mixture:

Keep product and empty container away from heat and sources of ignition. In the event of fire, cool tanks with water spray.

**Hazardous combustion products:** Carbon oxides.

### Advice for firefighters

#### Protective equipment:

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment

**Hazchem code:** •3Z

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

#### Personal precautions

Evacuate personnel to safe areas. Use personal protective equipment as required. See section 8 for more information. Take precautionary measures against static discharges. Do not touch or walk through spilled material. Ensure adequate ventilation.

**Other information:** Refer to protective measures listed in Sections 7 and 8.

**For emergency responders:** Use personal protection recommended in Section 8.

#### Environmental precautions:

Refer to protective measures listed in Sections 7 and 8. Prevent further leakage or spillage if safe to do so.

### Methods and material for containment and cleaning up

#### Methods for containment

Stop leak if you can do it without risk. Do not touch or walk through spilled material. Dike far ahead of liquid spill for later disposal.

#### Methods for cleanup

Take precautionary measures against static discharges. Dam up. Soap up with inert absorbent material. Pick up and transfer to properly labeled containers.

### Precautions to prevent secondary hazards

**Prevention of secondary hazards:** Clean contaminated objects and areas thoroughly observing environmental regulations.

# Safety Data Sheet

According to The Model Work Health and Safety Regulations, and the Globally Harmonized System of Classification and Labelling of Chemicals 7<sup>th</sup> Revised Edition

Revision: 05 October 2022

Trade Name: Rislone® Diesel Fuel System Treatment – Left Side

## 7. Handling and storage

### Handling:

#### Precautions for safe handling

Use personal protection equipment. Do not breathe vapor or mist. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharges. Use with local exhaust ventilation. Hand in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Do not eat, drink or smoke when using this product. Remove contaminated clothing and shoes.

#### General hygiene considerations:

Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product.

#### Conditions for safe storage, including any incompatibilities

##### Storage conditions:

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Keep in properly labeled containers. Store in accordance with particular national regulation. Store in accordance with local regulations. Store locked up. Keep out of the reach of children. Store away from other materials.

**Incompatible materials:** None known based on information supplied.

## 8. Exposure controls/personal protection

### Control parameters

#### Exposure limits

## Appropriate engineering controls

### Individual protection measures, such as personal protective equipment

|                                 |  |
|---------------------------------|--|
| <b>Eye/face protection</b>      | Tight sealing safety goggles.  |
| <b>Skin and body protection</b> | Wear suitable protective clothing.   |
| <b>Hand protection</b>          | Wear suitable gloves.  |
| <b>Respiratory protection</b>   | No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required. |

**Environmental exposure controls** No information available.

## 9. Physical and chemical properties

### Information on basic physical and chemical properties

#### General information

|  |                           |

## 10. Stability and Reactivity

**Reactivity** No information available.

**Chemical stability** Stable under normal conditions.

**Sensitivity to Mechanical Impact:** None

**Sensitivity to Static Discharge:** Yes

**Possibility of hazardous reactions:** None under normal processing

**Hazardous Polymerization:** Hazardous polymerization does not occur.

**Conditions to avoid:** Heat, flames and sparks.

**Incompatible materials** None known based on information supplied.

**Hazardous decomposition products** Carbon oxides

## 11. Toxicological information

### Information on toxicological effects

**Acute toxicity:** Based on available data, the classification criteria are not met.

### Product information

#### Inhalation:

Specific test data for the substance or mixture is not available. Aspiration into lungs can produce severe lung damage. May cause pulmonary edema. Pulmonary edema can be fatal. May cause irritation of respiratory tract.

#### Eye contact:

Specific test data for the substance or mixture is not available. May cause irritation.

#### Skin contact:

Repeated exposure may cause skin dryness or cracking. May be harmful in contact with skin.

#### Ingestion:

Specific test data for the substance or mixture is not available. Potential for aspiration if swallowed. May cause lung damage if swallowed. Aspiration may cause pulmonary edema and pneumonitis. May be fatal if swallowed and enters airways.

#### Symptoms:

Difficulty breathing.

Coughing and/or wheezing.

Dizziness.

### Numerical measures of toxicity

0 % of the mixture consists of ingredient(s) of unknown acute oral toxicity

0 % of the mixture consists of ingredient(s) of unknown acute dermal toxicity

0 % of the mixture consists of ingredient(s) of unknown acute inhalation toxicity (gas)

0 % of the mixture consists of ingredient(s) of unknown acute inhalation toxicity (vapor)

**Mobility in soil:** No information available**Mobility:** No information available**Other adverse effects:** No information available

## 13. Disposal considerations

**Waste treatment methods****Waste from residues/unused products**

Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.

**Contaminated packaging:**

Do not reuse empty containers.

## 14. Transport information

**ADG**  
**Hazchem code** Not applicable  
•3Z

**IATA** Not applicable

**IMDG/IMO**  
**Hazard Class** Not applicable  
N/A

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

No information available.

# Safety Data Sheet

According to The Model Work Health and Safety Regulations, and the Globally Harmonized System of Classification and Labelling of Chemicals 7<sup>th</sup> Revised Edition

Revision: 05 October 2022

Trade Name: Rislone® Diesel Fuel System Treatment – Left Side

## 15. Regulatory information

### Safety, health and environmental regulations/legislation specific for the substance or mixture

#### National regulations

##### Australia

See section 8 for national exposure control parameters

#### Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)

The below table provides the relevant information for classification of this product according to the regulation. This information should be used to appropriately determine if a classification is relevant to the overall product.

| Chemical name                             | Weight-% | Poison Schedule Number | Standard for Uniform Scheduling of Medicines and Poisons (SUSMP)  |
|---|----------|------------------------|---|
| Petroleum distillates, hydrotreated light | 88.2533  | 5                      | 5: including Kerosene, Diesel [distillate], Mineral turpentine, White petroleum spirit, Toluene, Xylene and light mineral and paraffin oils but except their derivative; except a) Toluene and Xylene when included in Schedule 6, b) Benzene and liquid aromatic hydrocarbons when included in Schedule 7, c) food grade and pharmaceutical grade White mineral oil, d) in solid or semi-solid preparations, e) in preparations containing ≤25% of designated solvents, f) in preparations packed in pressurized spray packs, g) in adhesives packed in containers containing ≤50 grams of adhesive, h) in writing correction fluids and thinners for writing correction fluids packed in containers having a capacity of ≤20mL, or i) in other preparations when packed in containers with a capacity of ≤2mL |
| Third Party Formulation                   | 0-10%    | 6                      | 6: except its derivatives; except in liquid hydrocarbons  |

#### National pollutant inventory

Subject to reporting requirement

| Chemical name                       | National pollutant inventory  |
|-------------------------------------|---|
