

#### SAFETY DATA SHEET

# **Rislone DPF Cleaner**

# SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

**Product identifier** 

Trade name: Rislone DPF Cleaner

Product no.: 44744

Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses of the substance or mixture: Additive

*Uses advised against :* None known.

Details of the supplier of the safety data sheet

Company and address: Rislone

P.O. Box 187 Holly, MI 48442

USA

## **SECTION 2: HAZARDS IDENTIFICATION**

Classified according to the Hazardous Substances (Hazard Classification) Notice.

#### Classification of the substance or mixture

Flam. Liq. 4; H227, Combustible liquid

Acute Tox. 4; H302, Harmful if swallowed.

Asp. Tox. 1; H304, May be fatal if swallowed and enters airways.

Acute Tox. 4; H332, Harmful if inhaled.

Muta. 1B; H340, May cause genetic defects.

Carc. 1B; H350, May cause cancer.

Carc. 2; H351, Suspected of causing cancer.

Repr. 1B; H360, May damage fertility or the unborn child.

STOT RE 2; H373, May cause damage to organs through prolonged or repeated exposure.

Aquatic Chronic 3; H412, Harmful to aquatic life with long lasting effects.

## **Label elements**

*Hazard pictogram(s):* 

Signal word:	Danger
Hazard statement(s):	Combustible liquid (H227) Harmful if swallowed or if inhaled. (H302+H332) May be fatal if swallowed and enters airways. (H304) May cause genetic defects. (H340) May cause cancer. (H350)
	Suspected of causing cancer. (H351)  May damage fertility or the unborn child.

May cause damage to organs through prolonged or repeated exposure. (H373) Harmful to aquatic life with long lasting

effects. (H412)

(H360)

*Precautionary statement(s):* 

General: If medical advice is needed, have product

container or label at hand. (P101) Keep out of reach of children. (P102)

Prevention: Obtain special instructions before use. (P201)

Wear eye protection/protective gloves/protective clothing. (P280)

Response: IF SWALLOWED: Immediately call a POISON

CENTER/doctor. (P301+P310)

IF exposed or concerned: Get medical

advice/attention. (P308+P313)

Storage: Store locked up. (P405)

Disposal: Dispose of contents/container in accordance

with local regulation

(P501)

Hazardous substances: Distillates (petroleum), hydrotreated light

paraffinic; Baseoil - unspecified; [A complex

combination of hydrocarbons obtained by treating a petroleum fraction with hydrogen in the presence of a catalyst. It consists of hydrocarbons having carbon numbers predominantly in the range of C15 through C30 and produces a finished oil with a viscosity of less than 100 SUS at 100 °F (19cSt at 40 °C). It contains a relatively large proportion of saturated hydrocarbons.] p-xylene;m-xylene;xylene;o-xylene Solvent naphtha (petroleum), heavy arom. ethylbenzene

Restricted to professional users.

Additional labelling:

Other hazards

Additional warnings:

This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification.

## Other information

[19] UVCB = Unknown or variable composition, complex reaction products or of biological materials

#### **SECTION 4: FIRST AID MEASURES**

# **Description of first aid measures**

General information: In the case of accident: Contact a doctor or

casualty department – bring the label or this

safety data sheet.

Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person

water or other drink.

*Inhalation:* Upon breathing difficulties or irritation of the

respiratory tract: Bring the injured person into fresh air. Make sure the injured person is continuously monitored. Prevent shock by keeping the injured person warm and calm. If breathing ceases, give mouth-to-mouth resuscitation. If unconscious, roll the injured

person into recovery position. Call an

ambulance.

Skin contact: Remove contaminated clothing and shoes

immediately. Ensure to wash exposed skin thoroughly with water and soap. Skin cleanser can be used. DO NOT use solvents

or thinners.

If skin irritation occurs: Get medical

advice/attention.

Eye contact: If in eyes: Flush eyes with water or saline

water (20-30 °C) for at least 5 minutes. Remove contact lenses. Seek medical assistance and continue flushing during

transport.

Ingestion: IF SWALLOWED: Immediately call a POISON

CENTER/doctor.

Do not induce vomiting! If vomiting occurs, keep head facing down so that vomit does not get into the lungs. Call a doctor or ambulance. Symptoms of chemical

pneumonia can appear after several hours. People who have swallowed the product should therefore be kept under medical

attention for at least 48 hours.

Burns: Not applicable.

# Most important symptoms and effects, both acute and delayed

Headache, Methaemoglobinaemia (naphthalene)

This product contains substances that can cause chemical pneumonia if swallowed. Symptoms of chemical pneumonia may appear after several hours.

# Indication of any immediate medical attention and special treatment needed

IF exposed or concerned:

Get immediate medical advice/attention.

#### Information to medics

Bring this safety data sheet or the label from this product.

#### **SECTION 5: FIREFIGHTING MEASURES**

#### Extinguishing media

Suitable extinguishing media: Alcohol-resistant foam, carbon dioxide, powder, water mist. Unsuitable extinguishing media: Waterjets should not be used, since they can spread the fire.

# Special hazards arising from the substance or mixture

Combustible liquid

In use may form flammable/explosive vapour-air mixture.

Fire will result in dense smoke. Exposure to combustion products may harm your health. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

If the product is exposed to high temperatures, e.g. in the event of fire, dangerous decomposition compounds are produced. These are:

Carbon oxides (CO / CO2)

## Advice for firefighters

Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact the National Poisons Centre: 0800 764 766 (24 hour service) in order to obtain further advice.

Hazchem Code: None

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

# Personal precautions, protective equipment and emergency procedures

Avoid direct contact with spilled substances.

Ensure adequate ventilation, especially in confined areas.

Avoid inhalation of vapours from spilled material.

Contaminated areas may be slippery.

# **Environmental precautions**

Avoid discharge to lakes, streams, sewers, etc. In the event of leakage to the surroundings, contact local environmental authorities.

## Methods and material for containment and cleaning up

Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

Wherever possible cleaning should be performed with normal cleaning agents. Avoid use of solvents.

#### Reference to other sections

See section 13 "Disposal considerations" on handling of waste.

See section 8 "Exposure controls/personal protection" for protective measures.

#### **SECTION 7: HANDLING AND STORAGE**

#### Precautions for safe handling

It is recommended to install waste collection trays in order to prevent emissions to the waste water system and surrounding environment.

Avoid direct contact with the product.

Avoid contact during pregnancy and while nursing.

Smoking, drinking and consumption of food is not allowed in the work area.

See section 8 "Exposure controls/personal protection" for information on personal protection.

## Conditions for safe storage, including any incompatibilities

Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

Recommended storage material: Always store in containers of the same

material as the original container.

Storage temperature: Dry, cool and well ventilated

Incompatible materials: Combustible materials

## Specific end use(s)

This product should only be used for applications quoted in section 1.2.

#### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Control parameters**

### **Exposure controls**

Compliance with the given occupational exposure limits values should be controlled on a regular basis.

General recommendations: Smoking, drinking and consumption of food

is not allowed in the work area.

Exposure scenarios: There are no exposure scenarios

implemented for this product.

Exposure limits: Professional users are subjected to the

legally set maximum concentrations for occupational exposure. See occupational

hygiene limit values above.

Appropriate technical measures: Do not recirculate outlet air that contain the

substances.

The formation of vapours must be kept at a minimum and below current limit values (see above). Installation of a local exhaust system if normal air flow in the work room is not sufficient is recommended. Ensure eyewash and emergency showers are clearly marked. Apply standard precautions during use of the

product. Avoid inhalation of vapours.

Hygiene measures: In between use of the product and at the end

of the working day all exposed areas of the body must be washed thoroughly. Pay special attention to hands, forearms and

face.

Measures to avoid environmental exposure: Keep damming materials near the workplace.

If possible, collect spillage during work.

## Individual protection measures, such as personal protective equipment

Generally: Use only protective equipment that have

been approved by IANZ or NATA, or a laboratory accredited under a recognised

Mutual Recognition Arrangement.

Respiratory Equipment:
No specific requirements

Skin protection:

Recommended	Type/Category	Standards	
Dedicated work clothing should be worn.	-	-	R

No data available

Solubility

Solubility in water: No data available

*n-octanol/water coefficient (LogKow):* Testing not relevant or not possible due to

the nature of the product.

Solubility in fat (g/L): No data available

Other information

Sensitivity to shock: No

Evaporation rate (n-butylacetate = 100): No data available
Other physical and chemical parameters: No data available.
Oxidizing properties: No data available

#### **SECTION 10: STABILITY AND REACTIVITY**

## Reactivity

No data available.

## **Chemical stability**

The product is stable under the conditions, noted in section 7 "Handling and storage".

# **Possibility of hazardous reactions**

None known.

## Conditions to avoid

Heat, flames, and sparks Excessive heat

#### **Incompatible materials**

Strong acids

Strong oxidizing agents

Strong bases

## **Hazardous decomposition products**

The product is not degraded when used as specified in section 1.

#### **SECTION 11: TOXICOLOGICAL INFORMATION**

## Information on toxicological effects

## **Acute toxicity**

Harmful if swallowed.

Harmful if inhaled.

#### Skin corrosion/irritation

Based on available data, the classification criteria are not met.

# Serious eye damage/irritation

Based on available data, the classification criteria are not met.

## **Respiratory sensitisation**

Based on available data, the classification criteria are not met.

#### Skin sensitisation

Based on available data, the classification criteria are not met.

## Germ cell mutagenicity

May cause genetic defects.

## Carcinogenicity

May cause cancer.

Suspected of causing cancer.

p-xylene;m-xylene;xylene;o-xylene has been classified by IARC as a group 3 carcinogen.

## Reproductive toxicity

May damage fertility or the unborn child.

## STOT-single exposure

Based on available data, the classification criteria are not met.

## STOT-repeated exposure

May cause damage to organs through prolonged or repeated exposure.

## **Aspiration hazard**

May be fatal if swallowed and enters airways.

## Long term effects

Carcinogenic effects: This product contains substances considered or proven to be carcinogenic. The carcinogenic effects may be triggered subsequent to exposure through inhalation, skin contact or ingestion.

#### **SECTION 12: ECOLOGICAL INFORMATION**

#### **Toxicity**

Harmful to aquatic life with long lasting effects.

## Persistence and degradability

Based on available data, the classification criteria are not met.

## **Bioaccumulative potential**

Based on available data, the classification criteria are not met.

#### Mobility in soil

No data available.

#### Results of PBT and vPvB assessment

This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification.

#### Other adverse effects

This product contains substances that are toxic to the environment. May result in adverse effects to aquatic organisms.

This product contains substances, which may cause adverse long-term effects to the aquatic environment.

#### **SECTION 13: DISPOSAL CONSIDERATIONS**

#### Waste treatment methods

Dispose of contents/container to an approved waste disposal plant.

## Specific labelling

### Contaminated packing

Packaging containing residues of the product must be disposed of similarly to the product.

## **SECTION 14: TRANSPORT INFORMATION**
