Splatt® Bug & Bird Dropping Remover

Part #: 2222

32 FL OZ (945 mL)

Splatt® Bug & Bird Dropping Remover

Splatt Bug and Bird Dropping Remover is specifically designed to remove bug and bird droppings from all exterior surfaces. This environmentally friendly formula is safer to use than petroleum based cleaners and will not strip wax, leave an oily film, or scratch the vehicle's finish. Will not damage ceramics, wax or PPF coatings.

Cleans bug and bird splats on

- Glass
- Plastic
- Fiberglass
- Chrome
- Paint
- Clear coat
- Front-ends
- Bumpers
- Head lights
- Bug guards
- Mirrors
- Vinyl
- Windshield
- Lexan
- And more!

DIRECTIONS:

1. Apply by spraying on vehicle (cool surface).
2. Let stand for one minute.
3. Spray small amount of Splatt on safe clean cloth. Wipe gently until surface is clean. If stubborn spots remain, repeat procedure.

Tips: Everyone has cleaned windows at a gas station. Spray Splatt on windows; wait one minute, and wash windows as you normally would with squeegee. This will give you a nice clean, bug and bird dropping free view of the road. Keep bottle in upright position and protect from freezing.

Note: If using while washing vehicle, spray Splatt on area being washed. Let soak one minute, and then wash vehicle as normal with sponge or soft cloth.
