PRODUCT DATA SHEET

Rislone® DIESEL DEFense

Part #: 4781

1.7 FL OZ (50 mL)

Rislone® DIESEL DEFense

Accumulation of harmful white crystalline deposits within the Selective Catalytic Reduction (SCR) Diesel Exhaust Fluid (DEF) system can lead to expensive repairs. It is important to take all possible measures to prevent their formation. Beyond the financial burden, these deposits can reduce engine performance, increase fuel consumption, and potentially render the vehicle or machinery inoperative.

Use RISLONE DIESEL DEFense treatment every time filling DEF tank to protect entire SCR system. Works with all diesel engines using SCR / UREA / AdBlue® Diesel Exhaust Fluids to prevent crystal deposits.

- Improves diesel exhaust fluid and avoids costly SCR / DEF system repairs.
- Regular use every time refilling the DEF / AdBlue® tank works to prevent the white crystallization deposits from occurring.
- Protects the tank, pump, heater, sender, liners, injector, and mixer.
- Works with all UREA / AdBlue® / DEF diesel exhaust fluids and will not void manufacturer's new vehicle warranty.
- Excellent for diesel vehicles driven regularly at slow speeds, low loads, short durations or make frequent stops as these are more prone to having the problem of crystallization deposit build up in the SCR system.

INSTRUCTIONS:

Pour directly into DEF cube or DEF tank after filling up.

DOSAGE:

One bottle treats 2.5 gallons (cube).

DO NOT ADD TO DIESEL FUEL
