

Rislone® NAME GOES HERE

Rislone® Hy-per Fuel™ Max Octane™ is a highly concentrated formula containing the only proven octane boosting additive, MMT (Methylcyclopentadienyl Manganese Tricarbonyl). When used as directed, it will increase the octane of gasoline up to 7 numbers or 70 points.

Use with ALL: Gasoline Fuel Injected, Port Fuel Injected (PFI), Direct Injected (DI / DIG), Gasoline Turbo Direct Injected (GTDI), Carbureted, Turbocharged, Supercharged, Off Road, Racing Engines.

- Boosts Octane 7 Numbers or 70 Points
- Racing Formula – Off Road Use Only
- Increases Horsepower and Performance
- Improves Acceleration Times
- Reduces Engine Octane Requirements
- Lead Substitute Lubricant
- Eliminates Engine Knock & Pinging
- Removes Power Robbing Deposits
- This bottle is designed to work in ALL fuel tanks including standard, obstructed, and capless (no fuel cap) systems.
- Cleaning and Protecting Engines Since 1921

INSTRUCTIONS / DOSAGE:

Gently tip bottle and completely insert neck into gas tank opening, allowing entire contents to empty into tank. Twist and gently pull to remove. One bottle treats 40 to 60 liters of gasoline. Use caution to avoid spilling on painted surfaces. Powerful MMT formula not legal for street use.
