

FUEL INJECTOR CLEANER

HEAVY DUTY CONDITIONER & TOP-LUBE

Part #: 4732

32 FL OZ (950 mL)

Rislone® Hy-per Fuel™ Heavy Duty Injector Cleaner with Fuel Conditioner & Top Lube

Rislone® Hy-per Fuel™ Heavy Duty Injector Cleaner with Fuel Conditioner & Top Lube is the best all-around fuel additive to use with every tank of fuel. This complete fuel system tune-up helps eliminate noisy injectors & fuel pumps, rough idle, hard starting, and hesitation. Heavy Duty additives increase power, performance, mileage (km/L) and help save fuel by cleaning & lubricating fuel injectors. Regular use, summer and winter, maintains optimum engine efficiency and power. Use in gas (petrol), ethanol, and diesel cars, SUVs, trucks, RVs, fuel injected, carbureted, turbo, GTDI, and direct injected engines. Works with all types of fuel including regular & unleaded gasoline (petrol), ULSD Ultra Low Sulfur Diesel, E85 Ethanol, and other reformulated and bio-fuel formulas.

- Upper Cylinder Lubricant (UCL) helps prevent cylinder, ring & piston wear along with lubricating valves & guides giving longer engine life
- Will not void manufacturer's new vehicle warranty and safe to use on vehicles which have oxygen sensors, catalytic converters, or DPF filters
- Exceeds EPA compliance performance criteria and is EPA registered
- Results will either be immediate or noticeable within a few days of driving. Non-solvent formula contains petroleum oils
- Premium P.E.A. Polyetheramine New Generation Detergent Patented Formula is a multifunctional additive improving the quality of fuel
- Cleaning Engines Since 1921

**FUEL
INJECTOR CLEANER**
HEAVY DUTY CONDITIONER & TOP-LUBE

- Increases Power, Boosts Performance & Mileage (kilometers per litre), and Saves Fuel by Cleaning & Lubricating Fuel Injectors
- Helps Eliminate Noisy Injectors & Fuel Pumps, Smooths Rough Idle, Hard Starting, and Hesitation
- Smooths rough idle and eliminates hard starts giving clearer, quieter operation
- The Fuel Conditioner & Top Lube protects and lubricates all parts of the fuel system including the fuel pump and injectors, allowing more power & performance

UCL – Upper Cylinder Lubricant Top Lube

The Rislone UCL additive is specially designed to lubricate the upper cylinder of an engine; however, this action starts in the fuel tank. This UCL formulation helps overcome the lack of lubrication in modern fuels including unleaded gasoline, ULSD diesel fuel, E85 Ethanol, and other oxygenated and bio-fuels. In the fuel tank, UCL helps prevent rust & corrosion and this process continues into the fuel lines. UCL also lubricates and protects the fuel pump, giving it a longer life and quieter operation. The next step for the UCL formula is to lubricate the injectors allowing them to work more efficiently. Not only are cylinder deposits cleaned, including gum and varnish, but as the UCL treats the upper cylinder, lubricating film helps to prevent carbon from sticking so that it can be burned. This film completely lubricates the upper piston, rings, guides, valves, and seats.

INSTRUCTIONS / DOSAGE:

P/N 4732 / 32 ounce (950 mL) bottle – One bottle treats 100 gallons (380 L) of gasoline (petrol) or diesel fuel. For smaller or larger systems, add approximately 3 ounces for every 10 gallons (50 mL for every 20 L) of fuel.

For vehicles with known fuel lubrication problems, double the dosage.

Results will either be immediate or noticeable within a few days of driving.

This fuel additive complies with the federal low sulfur content requirements for use in diesel fuel motor vehicles and non-road engines.
